PROFESSIONAL EXPERIENCE

Operations Manager

2024–Present

Lawyer's Aid Service, Inc., Austin, TX

- Manage business filings with Texas Secretary of State—incorporations, LLC formations, registered agent services—ensuring compliance and timely submissions.
- Oversee team operations and workflow, ensuring tasks are completed efficiently and deadlines are met.
- Streamline reconciliation workflows, saving hours monthly while improving accuracy in financial processes.

Freelance Full Stack Web Developer

2022–2024

AzTech Solutions, Remote / Austin, TX

- Developed and maintained web applications using Python, JavaScript, SQL, and C/C++, supporting full software development lifecycle from requirements to deployment.
- Automated client workflows by integrating REST APIs for state filings and CMS platforms, handling errors and parsing results effectively.
- Deployed scalable solutions via Azure and cloud platforms, monitoring performance and resolving production issues.
- Implemented secure authentication and authorization, sanitizing user inputs and protecting secrets in production environments.

Fitness Consultant

2021–Present

El Mar Fitness LLC, Remote / Austin, TX

- Design and deliver tailored fitness programs, managing projects independently and prioritizing client goals based on business impact.
- Oversaw full business operations, including client acquisition, reporting, and compliance, demonstrating strong communication and problem-solving skills.

PROJECTS

marshallbenson.com

Nov 2024–Mar 2025

Full-Stack Web Application

- Built secure full-stack application with custom CMS, authentication, and role-based access control.
- Integrated Azure Web App + SQL Server backend, improving content deployment speed by 50% and ensuring reliable uptime.
- Implemented input validation and security best practices to protect sensitive content.

elmarfitness.com

Feb 2023–Present

Business Website

- Launched platform with automated scheduling, email campaigns, and third-party API integrations.
- Perform routine health checks, monitor system behavior, and proactively address performance issues.

Remote Access Infrastructure

2024–Present

Self-Hosted Server with Global Access

- Built self-hosted Flask API server enabling secure remote access to home machines from anywhere in the world.
- Runs local LLM instances for hands-on experimentation with AI/ML technologies.
- Implemented Tailscale and RustDesk for secure remote access and low-latency streaming.
- Continuously explores new technologies and stays current with AI/ML industry trends.

EDUCATION

- **The University of Texas at Austin**, Austin, TX
Bachelor of Science in Kinesiology; Minor in Portuguese

May 2021
