PROFESSIONAL EXPERIENCE

Operations Manager

2024–Present

Lawyer's Aid Service, Inc., Austin, TX

- Manage business filings with Texas Secretary of State—incorporations, LLC formations, registered agent services—ensuring compliance and timely submissions.
- Oversee team operations and workflow, improving employee onboarding by 25%.
- Streamline reconciliation workflows, reducing time by 50% while improving accuracy in financial processes.

Technical Deployment Manager

2022–Present

AzTech Solutions, Remote / Austin, TX

- Deliver technical solutions and enablement to clients, developing custom web applications using Python, JavaScript, SQL, and C/C++ to meet business requirements.
- Build custom API integrations, training clients on effective use and ensuring secure implementation of data workflows.
- Connect backend systems with frontend platforms, streamlining data flow and enabling clients to adopt new technologies confidently.
- Deploy scalable solutions via Azure and cloud platforms, monitoring performance and resolving production issues. Perform UAT testing and verify successful releases.

Fitness Consultant

2021–Present

El Mar Fitness LLC, Remote / Austin, TX

- Design and deliver tailored fitness programs, helping clients achieve 100%+ strength gains and lose 10% bodyfat while retaining muscle.
- Oversaw full business operations, including client acquisition, reporting, and compliance, demonstrating strong communication and problem-solving skills.

PROJECTS

marshallbenson.com

Nov 2024–Mar 2025

Full-Stack Web Application

- Built secure full-stack application with custom CMS, authentication, and role-based access control.
- Integrated Azure Web App + SQL Server backend, improving content deployment speed by 50% and ensuring reliable uptime.

elmarfitness.com

Feb 2023–Present

Business Website

- Launched platform with automated scheduling, email campaigns, and third-party API integrations.
- Perform routine health checks, monitor system behavior, and proactively address performance issues.

Remote Access Infrastructure

2024–Present

Self-Hosted Server with Global Access

- Built self-hosted Flask API server enabling secure remote access to home machines from anywhere in the world.
- Deploy and manage local LLM instances for hands-on experimentation with AI/ML technologies, exploring RAG implementations and evaluating model performance.
